Additional Backup Information

Zucker Systems completed a workflow organizational assessment for the City's planning and development function. Among other recommendations, Zucker Systems examined the adoption process for administrative rules. In response to the recommendation to shorten process time, the proposed ordinance reduces the time by which a rule must be adopted from 90 days after a rule is posted to 70 days after a rule is posted. The proposed amendment makes minor changes to provide that notice of rules will be provided by email communication, unless otherwise requested. It also updates the Code to recognize that notices of proposed rules are posted on the City website and not on a physical bulletin board.
